1 based on the interview that you would be receiving
2 overtime for hours that you worked over 40?

3 A. She told me you would not receive
4 overtime.

5 Q. She told you that during the interview?

6 A. Yes.

7 Q. Did she tell you that the hours
8 would -- could tend to change from week to week
9 depending on travel or other circumstances?

10 A. Not really. She gave me the impression,
11 you traveled on Mondays, you were off on Fridays.
12 And having that day off on Fridays, are not required
13 to come into the office, would offset any additional
14 hours that you would have, so ...

15 Q. In your job at Tyler, are you familiar
16 with the term "configuration"?

17 A. Yes.

18 Q. What does that mean to you?

19 A. That would be when people in other areas
20 or the project manager would actually go in and set
21 up the tables and the flow of those tables to
22 customize them to -- as much as possible -- to a
23 customer's needs.

1 Q. So who did that? The project manager?

2 A. The project manager or someone from
3 corporate, depending on the intensity that was
4 needed, I guess you could say, or --

5 Q. But --

6 A. -- how complex it was.

7 Q. But that type of configuration wasn't
8 something that you did as an implementation --

9 A. No.

10 Q. -- specialist?

11 I'm sorry?

12 A. No, it was not.

13 Q. Okay. Let me ask you to focus your
14 attention on the trip -- trip notes document. I
15 forget which number it was. Three?

16 A. Yes.

17 Q. I wanted to ask you some questions about
18 that document and some of the entries on this. And,
19 first of all, to -- just to make sure we're on the
20 same page -- well, let me ask you this: This has
21 implementer Chris Kinney on it?

22 A. Yes.

23 Q. So this wasn't something that you
